Each album came with a lyric sheet and had 9 songs. How many songs did Janet buy total? A: Let's think step by step. (for all tasks)
output	Janet bought 6 country albums and 2 pop albums. That is a total of 8 albums. Each album has 9 songs. So 8 * 9 = 72. The answer is 72.	There are 6 country albums. Each album has 9 songs. So that's 54 songs. There are 2 pop albums. Each album has 9 songs. So that's 18 songs. Now we just have to add 54 and 18 and we get our answer: 72 songs.
